📁 Portfolio

PROFILE

Full Stack Engineer with 4+ years of experience building scalable, enterprise-grade applications across fintech, government, and e-commerce sectors in the UAE. Specialized in high-performance, type-safe systems using React, Next.js, and TypeScript, with backend expertise in Node.js (Express), Bun, Hono, and PostgreSQL. Proven track record delivering ERP systems, financial platforms, and government solutions that improve efficiency, scalability, and system reliability.

EDUCATION

Mansoura University

Bachelor of Computer Science & Information technology

2019 – 2023

PROFESSIONAL EXPERIENCE

Palm code, Full Stack Web Developer (Full Time)

10/2025 – Present | UAE

- Built an enterprise-grade accounting platform (Accounty) comparable to Odoo, supporting multi-currency financial workflows and advanced reporting
- Designed and developed a full-featured rental car ERP system with real-time inventory tracking, automated booking workflows, and integrated CRM functionality.
- Modernized a government-deployed slaughterhouse management system used across Sharjah and Abu Dhabi municipalities, significantly improving operational efficiency and regulatory compliance tracking.
- Architected scalable full-stack solutions using React, Bun, Hono, Zod validation, Neon PostgreSQL, and Drizzle ORM to ensure high performance, reliability, and type safety.

Neoxero, Front End Developer (Full Time)

09/2023 – 09/2025

- Developed SEO-optimized, high-performance web applications using React and Next.js
- Improved Core Web Vitals and frontend performance for production systems.

WeCode, Front End Developer (Remote - Part Time)

04/2023 – 01/2024

- Built high-performance React and Next.js applications with strong focus on SEO and performance optimization
- Worked closely with UI/UX designers to implement modern, accessible, and user-centered interfaces following best accessibility standards.

Eskan AI Mansoura, Web Developer (Full Time)

02/2022 – 08/2023

- Developed scalable, responsive, and accessible React.js user interfaces with full cross-browser compatibility, contributing to successful project delivery.

TECHNICALS SKILLS

Front End — HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, Next.js, Angular, React Native, Redux, Context API, Tailwind CSS, Zod Validation, WebSockets, Socket.io

Back End — Node.js, Express.js, Bun, Hono, REST APIs, Authentication (JWT, Clerk, NextAuth.js, Kinde), Redis

Testing — JEST & React testing library

Data Base — MongoDB, PostgreSQL (Neon), Prisma ORM, Drizzle ORM

PROJECTS

- Namoos – Mobile Application (iOS & Android)** [↗](#) **2026**
(App Store: Namooos)
Built a high-performance mobile app with secure API integration, optimized for a seamless cross-device experience using React Native and TypeScript.
- Rental Car ERP System** [↗](#), **UAE** **2026**
Full-featured rental management system with real-time inventory tracking, automated booking workflows, payment processing, and customer management. Developed using modern tech stack with emphasis on performance and scalability.
- Slaughterhouse Management System (Government Project), UAE** **2025**
Modernized legacy system deployed across Sharjah and Abu Dhabi municipalities. Enhanced operational workflows, compliance tracking, and reporting capabilities while maintaining government standards and security requirements.
- Al Nasr SC Store – E-commerce Platform** [↗](#) **2024**
Developed a responsive and multilingual e-commerce frontend for the official Al-Nassr Football Club store using React and Tailwind CSS, integrating REST APIs to enhance performance and user experience.
- Lighting-Address – E-commerce Platform** [↗](#) **2024**
Developed a scalable e-commerce platform for a lighting retail brand offering modern, energy-efficient, and smart lighting solutions for residential and commercial use
- AlQarat – E-commerce Platform** [↗](#) **2024**
Developed a scalable e-commerce platform for a Saudi brand offering fashion, furniture, and home décor products with modern designs and competitive pricing
- Makanly – Real Estate Platform** [↗](#) **2023**
Built responsive and scalable real estate platform frontend using Next.js, React, TypeScript, and Tailwind CSS with advanced property search and filtering capabilities.

PROFESSIONAL SKILLS

- Strong system architecture and scalable application design
- Advanced problem-solving and performance optimization
- Agile collaboration and cross-functional teamwork
- Excellent time management and delivery under tight deadlines
